

## Concept of measures for the realization of events at the Music Festival Potsdam Sanssouci and Nikolaisaal Potsdam gGmbH in due consideration of hygiene requirements, which are to be expected for the limitation of the SARS-CoV-2-Virus and COVID-19 (80%)

### 1. Basic rules:

- Capacity
- Hygiene
- (Medical) maske / mouth and nose covering
- No symptoms
- Ventilating
- Test strategy and dealing with incidents of sickness
- Work safety

### 2. Capacity:

To limit the spread of the SARS-CoV-2-virus variant the capacity has been reduced to 80%. The churches provide large volumes of space and outdoor events sufficient amounts of fresh air.

Audience capacities are

#### Church of Peace

Regularly: 501 seats currently (80 %): 400 seats

#### Raffael Hall

Regularly: 188 seats currently (80 %): 150 seats

#### Old Market (open Air)

Regularly: 1050 seats currently (80 %): 840 seats

#### Mulberry Avenue (open Air)

MUSIKFESTSPIELE  
POTSDAM SANSSOUCI

Regularly: 1920 seats currently (80 %):1536 seats

3. **Hygiene**: currently applicable hygiene and behaviour rules are communicated by means of all available media: website, tickets etc. Adherence to all hygiene rules is realized by specially trained staff at the respective venues. Hand disinfectants are provided at all venues. Bathroom facilities are cleaned regularly.
4. **Mask**: wearing a (medical) mask is recommended to all staff, artists and guests. Making the wearing of masks obligatory in churches and outdoor venues would be legally contestable since these are public spaces.
5. Venues can only be accessed by people who have currently **no symptoms**.
6. **Air quality** is monitored. (CO2-rate indoors)
7. **Test strategy** for artists: daily tests are performed in cases of singers and when opera stagings require close proximity. PCR test monitoring is initiated in case of a positive test result. The artist can return to rehearsals and participate in performances only when the PCR test is negative or if a health authority (German Gesundheitsamt) issues them with a relevant permit.
8. **Work safety**: staff and artists receive work and infection protection training. There are currently no guidelines from the German Social Accident Insurance for the area "Stages & Studios", which must be adhered to.
9. Foreign artists entering Germany follow all current rules and requirements.

As of: 9. June 2022, signed Heike Bohmann Managing Director
